“ Don was my co worker friend mentor father figure. When I lost my Dad when I was going through some of the hardest times in my life he was there giving me some of the best advice I'll never forget. One of the smartest men I ever met in my life not complicated or educated from some University. He had Degree from the University of Life. Don would give you anything he had his shirt off his back give you helping hand or just say hey I ain't trying to tell you what to do but this is the way I do it. When I screwed something up he was the first person I would go too I would tell him man I really messed up he would say naw it ain't nothing we can't fix. From women to motors to just about about anything he had some knowledge of. It's going to be really tough not seeing talking and laughing with him at work or not being able to call him. I will forever hold you in my heart and tell everyone story you told me LOL. Rest easy in Paradise ole buddy I'll see you again one day.
