“ Dr. George was a dear friend who was there for me during many trying times. He was always willing to help, always willing to extend a hand in whatever capacity. While I have many fond memories, the most impactful was getting me to see a career coach, he covered the expenses, drove me to different colleges to help me pick one out, and taught me how to drive and obtain my license. He was a man who cared and I told him before, I will honor him by succeeding in my career and I have.

I hope Dr. George got his wish of a peaceful passing, he always wanted to be like "going to sleep and waking up dead, no in between"

Georgiana and Mike, I've visited the barn a number of times over the years, hoping to catch one of you and to say Thank You! Thank you Mike for the birkman results. I honor JimBob by letting you know, I work for one of the top banks in America, making six figures, and an office with windows.

“ *Dr. George was a very good friend of mine and my wife I started going to him in 1990 because of whiplash caused by a car accident. My wife had known him and talked me into going to him for help. He was a great chiropractor and helped me get back to normal life. My wife and I became friends with Dr George and loved him very much. He always had time for us and the last time we went to his home he walked down to see his goats and up to see the horses and talked with him for an hour or more.*

I was very saddened when Dr. Duram told me that he had passed. I hope his family are doing well and wish them well. Deepest sympathies from Yvonne (Squirt) and Tom Schuman!!!

“ *I had the privilege of knowing Dr George all my life! We truly enjoyed visiting with him and his goats, horses and dog. I will always be in his debt with all the kindness and going the extra mile for both of my parents when we were caring for them. When I often thanked Dr George for this, as usual he didn't think he did anything special! A truly kind friend that will be truly missed! My deepest sympathy for his family and friends!*

Saddened too find the obituary of Dr. George. He helped me so much through the years with back issues after a automobile accident. He was a gifted, caring doctor. My deepest sympathies.
