“ I have such fond memories of Lottie. When I was 16, my first job was at Top Flight, and Lottie was my trainer. Little did I know how seriously she took her job. She was training me to feed notebooks into one end of a machine. When the notebooks came out the other end, each had a spiral wire holding it together. One day I was minding my own business and noticed a notebook that had gone crooked. I reached out to straighten it and flew through the air landing on my rump. Lottie had tackled me away from the machine, saving me a few fingers! I never did that again. God bless Miss Lottie. Love, Kathleen R. Darnell
