“ Hi my name is Taneka Smith and i work at Sanofi aka Chattem drugs and i met Mike through my position as a Document Control Specialist at Plant 4. I never got to physically meet Mike but I didn't have to to know that he was an awesome man. Anything i had problems with all i had to do was email or call and Mike would take care of it without question. I collect refrigerator magnets and being the needy person i am i asked Mike to bring me one back from a family trip they took. Instead of telling me no lol Mike got me one and had it brought to me by one of his employees. I really wish i could've met the man behind the awesome email/phone calls. I just want to say thank you to his family for having a really great guy and i know he will be greatly missed. All my blessings for you all and great strength. I really hope that the Lucky Bamboo plant keeps thriving because i see that as Mike watching over you all.

“ *There was never a dull moment with Mile in my Sociology/Psychology class. I don't know how many times I told him to quit leaning back in his chair! Great personality and smile and I was so glad when he and Tracy married. Love to all the family and friends.*
